

St Andrews House in Lyme Regis

In order to adhere to the safety advice given by the Government in regard to Covid 19 and to do everything we can to keep all our guests safe we have the following procedures in place at our B&B

Guests are asked to use the hand sanitiser which is available in reception when entering the house.

All rooms are deep cleaned between guests.

All bedrooms and bathrooms are serviced daily. All surfaces, switches, handles and soft furnishings are sanitised.

Breakfast is served in the conservatory and will be mostly waitress service not self-service. We will be operating time slots to help keep to the social distancing regulations.

Throughout the property all areas are sanitised throughout the day.

The decking area and conservatory are available for guests to use. We ask that guests use the sanitising spray before leaving the area, so it is ready for other guests to safely use. Sanitising spray and disposable paper wipes are available in reception.

During the evenings, the conservatory is available for either takeaways or some local restaurants offer delivered meals.

Should any guest become unwell with any Covid 19 symptoms we ask that they inform us immediately.
